

# KESTRAL

## Corporate Profile

### Giving You The Complete Picture

**K**estral is an Australian operated organisation located in Perth, Melbourne, Sydney and Auckland.

**F**or more than twenty years, Kestral has proudly provided intuitive, best of breed Radiology Information System and Pathology Laboratory System solutions to the Australian and International Health Industries.

**S**panning the public and private sectors, Kestral's customer base includes small and large, single and multi-site installations. Our commitment to Australian / New Zealand healthcare extends to our support and participation in developing open standards, such as HL7.

**D**edicated to innovation, our mission is to give clients the best solution possible, whilst maintaining excellent, robust connectivity and integration with partner systems.

#### Our Company

Kestral develops a range of innovative and customisable products geared specifically for the Australian and New Zealand Health industries.

Karisma provides healthcare professionals with the tools to schedule examinations, book resources, perform Medicare Online claims, manage patient accounts and more.

#### Our People

Our staff have a diverse range of qualifications and experience. We employ people from medical backgrounds, computer science, engineering, telecommunications networking and other applicable disciplines.

As a Kestral client, you can be sure that the people dealing with your issues share your understanding of the Healthcare industry.

#### Our Mission

Kestral will be the premier provider of technology software solutions and services to the Radiology and Pathology market.

We will be recognised as the employer of choice with strong relationships in our communities.

## Business Development

Our Business Development team can assist you in determining your requirements and tailoring a solution to meet your needs.

We make it our mission to hire, train and retain the best IT professionals to design, develop and test our software.

For Australian and New Zealand customers, Kestral provides local support, local time and local people.

We have a team of over 20 professional health and IT support staff who operate out of our Perth, Melbourne, Sydney and Auckland offices.

## Support

Kestral systems are designed, developed, tested, marketed and supported in Australia by a dedicated team of industry professionals who understand both IT and medical systems.

Kestral has been in the industry for over 20 years and has played a key role in assisting both private practices and major hospitals to increase efficiency and minimise costs, while empowering them with a competitive edge over their rivals.

With a wealth of knowledge and experience in the industry, our Development and Support teams will ensure you get a superior product and the best support possible.

“...equipped with integrated accounting, reporting, voice recognition, digital dictation, intuitive document scanning...”

## Our Products

Kestral's intuitive, best of breed Radiology Information System, Karisma comes equipped with integrated accounting, reporting, voice recognition, digital dictation, intuitive document scanning, desktop-level Picture Archiving and Communication System integration, HL7Connect integration and a host of other beneficial standard features.

The Pathology Laboratory System (PLS) from Kestral is a full-featured integrated, information management solution across the many disciplines of Pathology. PLS intelligently automates the

accurate and complete transfer of data information requests between both PLS and the hospital Patient Master Index.

HL7Connect is a feature-packed HL7 messaging interface that enables communication between various HL7-compliant applications; thereby removing any need for applications to interface directly.

Unique to the field of medical information systems, Kestral's Clinical Integration System is a practical, real-world application allowing the quick

retrieval of medical information from many existing local and remote sources via a user-friendly browser interface.

## Our Core Values

**Service Excellence**

**Teamwork & Transparency**

**Innovation & Initiative**
